RE: South Field Phase II Module

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Project Specific Plan (PSP) for installation of the South Field phase II module extraction/reinjection wells and additional South Field monitoring wells.

This document provides a plan for constructing additional groundwater extraction, reinjection, and monitoring wells as part of the South Field phase II module at the site.

The PSP appears adequate. Therefore U.S. EPA approves the PSP for the South Field phase II module.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
